I'm requesting that the FCC reject the National Association of Broadcaster's petition #04-160. The NAB is stepping out of line by trying to control what subscribers pay for when they listen to XM Sattellite Radio. I am not yet a subscriber myself, but am seriously considering the service as I am disenchanted with the restrictions the FCC are putting on our First Ammendment right. If XM is going to be censored, why isn't cable television? I'm seeing a double standard here.
